

Window

Selecting different buttons on the button bar causes different lists to be available in DropDown 1. Lists depend once on external data

ButtonBar 1 Button 1 | Button 2 | Button 3 | Button 4

ButtonBar 2 Button 1 | Button 2 | Button 3

NumericStepper 1

NumericStepper 2

Selecting an item on the drop down causes a change in the stepper

DropDown 1

DropDown 2's visibility depends on external data in another model

DropDown 2

DropDown 3's choices affect DropDown 4's

DropDown3

DropDown4

ButtonBar 1 affects the list of DropDown 3's choices, but the list is static aside from some filtering.
