

4 Tasks

Name	Description	Created By	Schedule
Startup Microsoft SQL Server	Start EBS instance [i-4bc4cd09] in Ireland	proxama	cron [* 3 * * 1,2,3,4,5]

Name tag value contains

Source region

Backups to retain

Destination regions

Ensure volume consistency by shutting down instance before image creation and start instance afterwards

Backups can be created without rebooting an instance, but AWS recommends the reboot to ensure file system integrity.

Source region

Assign Elastic IP
